Cleaning Tips

To maximize cleaning product purchases

- **Use the right amount of product:** Read the label.
- **Consider multi-purpose products:** There are many cleaning products available that effectively clean a variety of surfaces. Just make sure you read the label so you're using the right product on the right surfaces.
- **Fill-up on refillable products:** Many bulk sizes are packaged with a corresponding smaller, refillable version of the product. If your choice doesn't come that way – and/or you want to keep the cleaner in multiple locations – purchase a smaller size and refill the container as necessary. That way, no matter where you use the product, it'll be properly labeled in case of an emergency.

Carpet Cleaning in Spring from Bob the Cleaner!

In addition to soil and salt, carpet could be harboring bacteria, mold, dust mites, pollen, and other allergens. This is where vacuuming becomes even more crucial. As we look ahead to spring, it's important to focus on managing the problems from winter. Clean spots immediately when they occur; daily vacuuming, periodic deep cleanings, and interim maintenance are essential for proper care.
